

# MDF (MEDIUM DENSITY FIBER BOARD)

\*all drawings are for reference only, and are not exactly to scale.

Muskoka Lumber's high grade MDF has properties that far exceed industry standards and make it ideal for precision machining. Our full selection of profiles are 5/8" thick, and come machine-primed, UV cured, and buffed. All profiles are available in a Moisture Resistant MDF for special order; and we always keep our most popular profiles in stock. (\*see table below).

## MDF PROFILES AVAILABLE IN:

\*we also offer Moisture Resistant MDF in all profiles (3/4" thick)

1/4" GAP

STD. V-JOINT

BOSTON BEAD

1/8" GAP

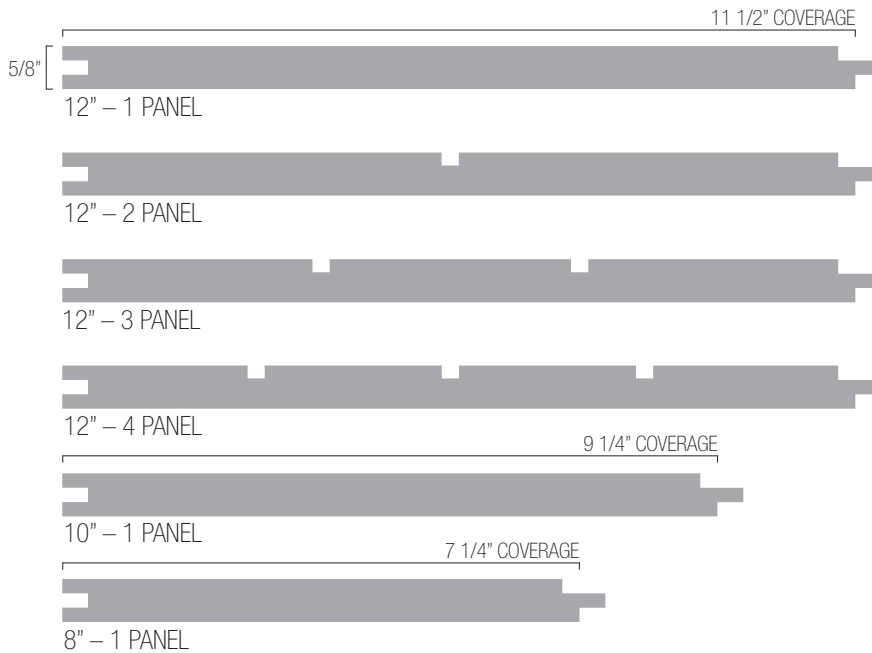

MICRO V-JOINT

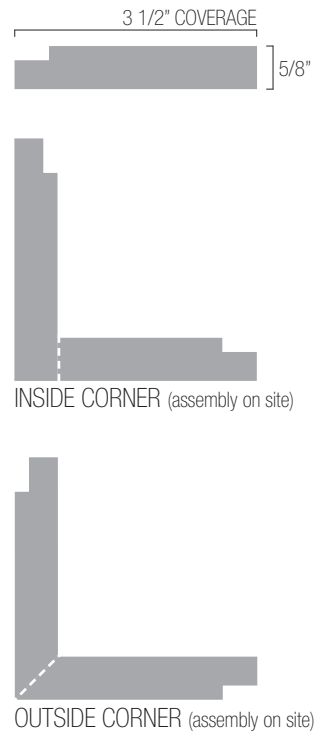

STANDARD BEAD

## MDF GAP PROFILE EXAMPLES:

## MDF GAP CORNERS:

MDF PROFILE	1P 12"	2P 12"	3P 12"	4P 12"	1P 8"	1P 10"
V-JOINT	S	S	S	S	S	SO
MICRO-V	SO	SO	SO	SO	SO	SO
1/4 GAP	S	S	SO	SO	S	SO
1/8 GAP	S	S	SO	SO	S	SO
BEAD BOARD	SO	S	S	S	SO	SO
BOSTON BEAD	SO	SO	N/A	N/A	SO	SO
TRIM CORNERS	S
